

MERKUR LUXUS

- material: stainless steel 18/10, chrome steel 18/0, aluminium, copper
- bottom: 5-ply
- hob type: gas, electric, ceramic and induction
- lid: glass lid with hole for releasing hot air steam
- advantages: energy saver, fast and even heat distribution, professional kitchenware

MERKUR

- material: stainless steel, chrome steel
- bottom: 3-ply
- hob type: gas, electric, ceramic and induction
- lid: glass lid with hole for releasing hot air steam
- advantages: energy saver, fast and even heat distribution, professional kitchenware

ORION EXPERT PLUS

non-stick coating ILAG DURIT, 5-layer with copper

- material: stainless steel 18/10, aluminium, copper, chrome steel 18/0
- bottom: 5-ply
- hob type: gas, electric, ceramic and induction
- lid: no lid
- advantages: energy saver, even heat distribution, stainless steel handle

ORION EXPERT

non-stick coating ILAG DURIT, 5-layer

- material: stainless steel 18/10, aluminium, chrome steel 18/0
- bottom: 5-ply
- hob type: gas, electric, ceramic and induction
- lid: no lid
- advantages: energy saver, even heat distribution, stainless steel handle

ORION PROFESSIONAL

with Profi handle, 5ply with Copper

- material: stainless steel 18/8, aluminium, copper, chrome steel
- bottom: 5-ply
- hob type: gas, electric, ceramic and induction
- lid: no lid
- advantages: energy saver, even heat distribution, stainless steel handle

ORION PROFESSIONAL

non-stick coating ILAG DURIT, 3-layer

- material: stainless steel 18/10, non stick coating
- bottom: copper sandwich bottom + 18/0 protector
- hob type: gas, electric, ceramic and induction
- lid: no lid
- advantages: energy saver, even heat distribution, stainless steel handle, easy preparation of healthy meals

ORION LUNASOL

non-stick coating with CNS - Profi handle

- material: stainless steel 18/10, non stick coating
- bottom: 2-ply, stainless steel magnetic disc
- hob type: gas, electric, ceramic and induction
- lid: no lid
- advantages: energy saver, even heat distribution, stainless steel handle

ORION LUNASOL

Collection CNS 18/10

- material: stainless steel 18/10
- bottom: 2-ply, stainless steel magnetic disc
- hob type: gas, electric, ceramic and induction
- lid: no lid
- advantages: energy saver, even heat distribution, stainless steel handle

ORION LUNASOL

non-stick coating with CNS - Profi handle

- material: stainless steel 18/10, non stick coating
- bottom: 2-ply, stainless steel magnetic disc
- hob type: gas, electric, ceramic and induction
- lid: no lid
- advantages: energy saver, even heat distribution, stainless steel handle

ORION LUNASOL

non-stick coating with CNS-Profi handle and Glass lid

- material: stainless steel 18/10
- bottom: 2-ply, chrome steel magnetic disc
- hob type: gas, electric, ceramic and induction
- lid: glass lid
- advantages: energy saver, even heat distribution, stainless steel handle

ORION INOX

non-stick coating, CNS handle, glass lid

- material: stainless steel 18/10
- bottom: 2 layers, aluminium and chrome steel (capsule bottom)
- hob type: gas, electric, ceramic and induction
- lid: glass lid with chrome steel edge and an opening for releasing vapor
- advantages: energy saver, even heat distribution, stainless steel handle

ORION GAYA

- material: stainless steel 18/10, aluminium, chrome steel 18/0
- bottom: capsule, 3-ply
- hob type: gas, electric, ceramic and induction
- lid: glass lid with hole for releasing hot air steam
- advantages: energy saver, even heat distribution, stainless steel handle

SIRIUS GAYA KUPFER

- material: stainless steel, chrome steel, copper
- bottom: 3-ply
- hob type: gas, electric, ceramic and induction
- lid: glass lid with hole for releasing hot air steam
- advantages: energy saver, even heat distribution, profi handle

SIRIUS TITAN

- material: Titanium, aluminium, chrome steel
- bottom: capsule bottom, 3-ply
- hob type: gas, electric, ceramic and induction
- lid: available for certain types
- advantages: energy saver, even heat distribution, stainless steel handle

SIRIUS TRIPLY

- material: stainless steel 18/10, aluminium
- bottom: 3-ply
- hob type: gas, electric, ceramic and induction
- lid: available for certain types
- advantages: energy saver, even heat distribution, stainless steel handle

SATURN

non-stick coating ILAG XERADUR 2, 3-layer

- material: stainless steel 18/10, aluminium, stainless steel 18/0, non stick coating
- bottom: capsule bottom, 3-ply
- hob type: gas, electric, ceramic and induction
- lid: available for certain sizes
- advantages: energy saver, even heat distribution, stainless steel handle, improved coating Ilag Xeradur 2 for certain types

JUPITER

- material: cast iron, enamel
- bottom: enameled cast iron
- hob type: gas, electric, ceramic and induction
- lid: available for certain sizes
- advantages: even heat distribution and retain, ideal for higher surface temperature cooking, oven safe, durable and easy clean coating

URANUS BLACK

- material: aluminum, Megastone non stick coating
- bottom: 2-ply, chrome steel magnetic disc
- hob type: gas, electric, ceramic and induction
- lid: no lid
- advantages: soft-touch handle with metal temperature color changer

BASIC

- material: aluminium, non stick coating, chrome steel 18/0
- bottom: 2-ply, chrome steel magnetic disc (capsule bottom)
- hob type: gas, electric, ceramic and induction
- lid: no lid
- advantages: even heat distribution

PLUTO LUNASOL

- material: stainless steel 18/10, aluminium, chrome steel 18/0
- bottom: 3-ply
- hob type: gas, electric, ceramic and induction
- lid: glass lid
- advantages: energy saver, even heat distribution, bakelite handle

LYRA

- material: aluminium, non stick coating
- bottom: 2-ply, chrome steel magnetic disc
- hob type: gas, electric, ceramic and induction
- lid: no lid
- advantages: even heat distribution, bakelite handle

VENUS

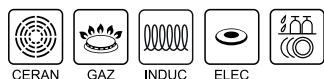

- material: aluminium, non stick coating
- bottom: 2-ply, stainless steel magnetic disc
- hob type: gas, electric, ceramic and induction
- lid: no lid
- advantages: even heat distribution, bakelite handle

MERCURY

- material: aluminium, non stick coating
